

Doing Good in the Wilson Community...

Making a Difference in the lives of many...

Sandi Faircloth,

BB&T Assistant Vice President and Branch Operations Support Manager is making a difference. As a member of the BB&T United Way cabinet this year, she volunteered to drive company employees on United Way tours. No stranger to agency tours, Sandi, who has supported the United Way agencies for years, knows the value of seeing donation dollars at work!

Sandi is a kind and caring person, and has supported United Way agencies including the Wesley Shelter and the Rape Crisis Center. When asked about how she decided to get involved with our agency in such a generous way she said, "I was impressed by

the general operation of the agency and the opportunities provided to the clients.

Most of all though, interacting with the clients just stole my heart. Their excitement, enthusiasm and attitude were infectious and made me want to give them the moon." And so it began...

Sandi has visited Diversified Opportunities several times since the tour in September. Her very next visit included lunch for all of the clients. There was a seemingly endless supply of any type of pizza one could imagine. The clients were thrilled, and still talk about Sandi's special delivery – just for them. Microwaves appeared under her tree from Santa; carefully chosen for the clients of Diversified. Sandi has plans to sponsor a Valentine's Day pizza luncheon on February 14th.

Our clients are very appreciative of Sandi's generosity.

As we thank her for everything she's doing for our clients, we asked her what is one thing that you would want others to know about Diversified Opportunities and the clients we serve? "These wonderful people want to make a difference in their lives and their community. Diversified makes it possible for them to have purpose and self-esteem. It's a mutually rewarding experience to volunteer time and resources to Diversified."
